

# Bolphane® BRN

Soft shrink polyolefin film

- Soft shrink.
- Excellent machinability on high speed equipment.
- Superior gloss.
- High clarity level.

## APPLICATIONS

➔ Bolphane BRN film benefits from an exclusive formulation especially designed for soft and flexible items usually met in the stationery, textile and paper products.

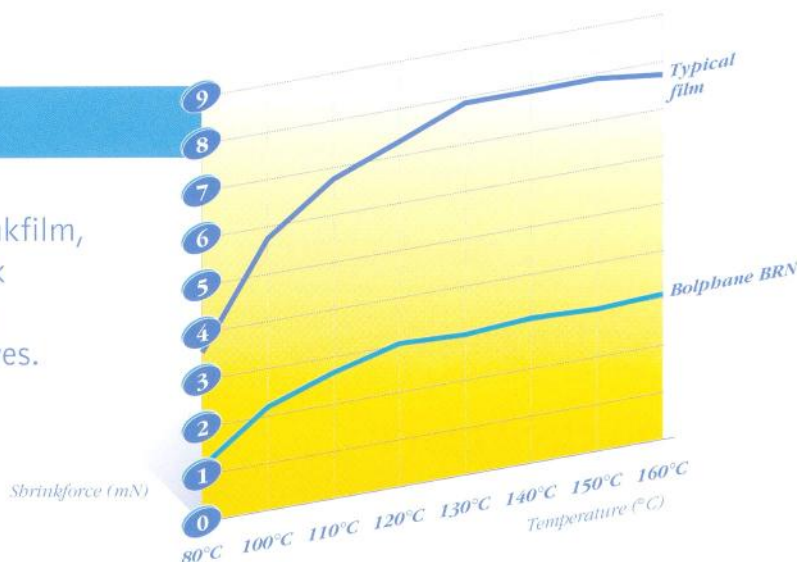

➔ On high speed processing conditions, BRN reveals itself in terms of high output performances and unmatched clarity level.

Bolloré

# Bolphane® BRN

## SHRINK PROFILE

- Compared to a typical shrinkfilm, Bolphane BRN keeps shrink forces under control within a large range of temperatures.

## TECHNICAL FEATURES

PROPERTIES		15 MICRONS
Yield (m <sup>2</sup> /Kg)		72,6
Gloss (85° angle) in %		115
Haze (%)		3
Shrinkage (%)	at 93°C	30
	at 120°C	60
Length of the roll (m)	Singlewound BRN-S	2 670
	Centrefolded BRN-C	1 335
Internal diameter (mm)		76,2
External diameter (mm)		245

## PRESENTATION

- Bolphane BRN exists in Singlewound (BRN-S) or in Centerfolded (BRN-C). For any specific request, please refer to the commercial documentation.

VERSION	WIDTH (mm)		
	mini	maxi	increment
BRN-S	150	1 400	10
BRN-C	150	850	10
